[Confirmation for use by your child]

Before handing the mobile phone or tablet to your child, please read below for your child's safety and check the boxes below where applicable.

- I understood that using the Internet without any filtering service may cause my child to come into contact with illegal or harmful materials that could be detrimental to his/her personal development.
- I understood that increasing numbers of young people have gotten in trouble through communication with strangers via social media sites, etc. and they are at risk not only of falling victim but also of committing a crime themselves before they know it.
- I am certain I have made the right choice for my child based on a good understanding of the above points.

Consent items

If the applicant is purchasing a mobile phone or other device on consumer credit or individual item installment sales, I consent to the applicant signing a contract with the company in accordance with the terms and conditions set out in the relevant Consumer Credit Agreement or Individual Item Installment Sales Agreement and applying to pay off the balance of installments before the end of the installment payment period.

I accept that, if the contract holder designates a credit card or a bank account in my name (※in the name of the parent specified in this Parental Consent Form only) as their method of payment for au or UQ mobile telecommunication service charges※7, payment for au or UQ mobile telecommunication service charges used by the contract holder will be made using the designated credit card or bank account. In the event of any delay in making payments, I will make every effort to resolve the matter.

1. Disclaimers Concerning Applications for Consumer Credit Agreements or Individual Item Installment Sales Agreements

- According to the provisions in the Installment Sales Act (excluding individual item installment sales agreements), personal credit information, including the contract holder's payment status, is queried and registered at a credit information agency designated by the Ministry of Economy, Trade and Industry at the time of applying for a consumer credit agreement or individual item installment sales agreement, and after entering the agreement. Other members of the designated credit information agency may also use the information about the registered contract holder.
- Even if the contract holder is a minor and the parent or guardian falls into arrears with respect to payments, the payment arrears will be treated as information about the under-age contract holder. Please note that applications for other credit lines or loans may be denied since a record of any payment arrears is held at the designated consumer credit agency for a period of 5 years after full payment.
- If signing a Consumer Credit Agreement or an Individual Item Installment Sales Agreement when applying to purchase a mobile phone or other device※, the parent will be required to come into the store on each occasion (for the purpose of parental consent).
※Applications to purchase a mobile phone include new devices, upgrades, additional devices and loss replacement services.

2. Other precautions

- To make monthly payments using the parent/guardian's credit card or bank account, the applicant must be accompanied by the relevant parent/guardian at the time of application.
- If any of the information entered on this form (name, address, contact details, etc.) is found to be inaccurate, the contract may be terminated.
- With regard to the use of mobile phones by children, please discuss the purpose, method, time, charges, etc. extensively with the children and establish rules. Please also ensure that you review the rules regularly.

3. Confirmation items on filtering services

- When using the Internet, adolescents may come into contact with illegal or harmful materials that could be detrimental to their personal development. The Internet also exposes users to criminal activity and other risks including the following. We therefore recommend signing up for a filtering service.
You can still sign up even if the contract holder is an adult, providing that the user is a minor.
 - (1) Increasing numbers of young people have gotten in trouble through communication with strangers via social media sites, etc.
※About 90% of minors who became involved in criminal activities through social media sites were not using any filtering services. (Based on the National Police Agency's announcement in March 2021)
 - (2) They are at risk not only of falling victim but also of committing a crime themselves before they know it.
 - (3) They are also at risk of suffering consequences from accessing the Internet too much, which includes social media and various apps. (Based on the FY2020 Survey on Adolescent Internet Usage Environment by the Cabinet Office)

If the contract holder is different from the user of the au/UQ mobile mobile phone, the contract holder can register using their own details.

- If the contract holder or the user is a minor, a Filtering Service Application※9 must be submitted.
If the applicant brings in a Filtering Service Application unaccompanied by a parent/guardian, confirmation must be obtained from the parent/guardian by telephone.
- **Even if the applicant wishes to decline filtering services, a Filtering Service Application must be submitted.**

※ Please be advised that if the content of this application is found to be untrue and inaccurate, the company may consider this application for non-use of the filtering service to be null and void, and may provide the filtering service.

(※1) It includes payment services such as the au Simple Payment Service that enable a user to pay charges for the services and items purchased at various websites together with au or UQ mobile telecommunication service charges. Please note that you may be charged an expensive fee for Data Charge or the purchase of chargeable contents in the au Simple Payment Service. au Simple Payment Service requires your PIN for authentication. The initial PIN is the 4-digit number you filled out in the application form at the time of your contract for a new phone line. Even in the event that a family member or anyone else is authenticated, the contract holder needs to pay for the resulting bill because the authentication is handled as being signed in by the contract holder. Avoid other people knowing your PIN.

(※2) This Parental Consent Form is required for each request for a phone number change.

(※3) Children in elementary school may not apply to suspend, cancel or transfer a contract in their name on their own (until they enter middle school (7th grade)). Applications should be made in the name of the parent/guardian or legal representative instead.

(※4) The company offers a range of services that users can apply for directly from their mobile phone or other device.

(※5) The applicable models are Galaxy Z Fold2 5G (SCG05), Galaxy Z Flip 5G (SCG04), Galaxy Z Flip (SCV47), Galaxy Fold (SCV44), Galaxy Z Flip3 5G (SCG12), Galaxy Z Fold3 5G (SCG11) and Google Pixel 5/6/6a/7/7Pro.

(※6) Minor WEB Filter does not allow access to be restricted when Wi-Fi communication is used. When you use an applicable model for Safety Filter, Screen Time, or Family Link, we recommend setting or using it.

(※7) The applicable models are mamorino Watch (ZTF31), mamorino4 (ZTF32), mamorino5 (KYF40) and mamorino6 (SHF35).

(※8) It includes charges for the services and items purchased at various websites, if any.

(※9) In the event you request to decline filtering services, you are required to do so in accordance with the proviso of Article 15 of the Act on Establishment of Enhanced Environment for Youth's Safe and Secure Internet Use. The submission of this form is required for contracts with subscribers under the age of 18, or when the user is under the age of 18.
