

# Important Information on Canceling Your Contract

Upon completing Mobile Number Portability (MNP) procedures, your contract with au will be canceled and you will start a new contract with the carrier you switched to.

Therefore, we ask that you read and agree to the terms below before proceeding with the MNP process.

Switching from au to UQ mobile or povo2.0 with the same phone number is called a “number transfer”\*. In this case, replace the word “MNP” with “number transfer” when reading this document and in the instructions for various procedures, and so on.

\*Switching between KDDI and Okinawa Cellular will be referred to as “MNP.”

## ■ About MNP Reservation Number

The MNP Reservation Number is valid for 15 days, including the day you made the reservation. Your contract with au will not be automatically canceled even after the expiration date. Please be careful to manage this number yourself.

## ■ About MNP One Stop

- If you have completed your reservation for cancellation on “My au” after starting to apply for MNP at the carrier you will be switching to, complete the application procedure within 5 days at the carrier.
- If you have stopped your application procedure at the carrier you will be switching to, you may need to cancel your reservation for cancellation on “My au” to resume the procedure.

## ■ MNP Procedures

Because the carrier you will be switching to will check with au on the contract holder's name, please apply for MNP under the same name registered for the applicable line. Your contract with au will be automatically canceled when processing by your new carrier has been completed. However, we may decline the MNP process if there are overdue payments for au.

The only au line you applied for MNP will be canceled automatically, not other au lines of yours.

## ■ Charges for Canceling Your Contract

<Charges>

There will be no MNP Processing Fee.

The cancellation fees will be free.

A penalty fee may apply if you do not return au Femtocell or au Repeater.

<Service Fees for the Month of Cancellation>

Service fees will be billed in the month following the cancellation of your contract. The same payment method applied during the contract period applies to that payment.

Basic usage fees, flat-rate fees for flat-rate data services and option fees will be billed for the entire month, regardless of when the cancellation was made. Applicable call charges and other fees until the date of cancellation will be billed.

(When you are “number transfer” from au to UQ mobile/povo2.0, basic usage fees, flat-rate fees for flat-rate data services and some option fees will be billed on a pro-rata basis.)

Your date of cancellation of your au contract is the day your new contract with the carrier you

switched to has started, not the day your MNP Reservation Number was issued. Therefore, in the event the procedures to switch to your new carrier carried over to the next month, the abovementioned fees will apply for the month of your cancellation.
