# TORQUE® G02

## Setting Guide

Thank you for buying the "TORQUE G02" (simply called the "product" from here on). In this guide, settings and precautions for using the product are described. For explanations of basic functions, refer to "Basic Manual".

Company names and product names referred to in this manual are trademarks or registered trademarks of respective companies. The TM, ® marks may be omitted in this manual. Screen illustrations shown in this manual may look different from the actual screens. In some cases, minor details or a part of a screen may be omitted.

Sold by: KDDI CORPORATION, OKINAWA CELLULAR TELEPHONE COMPANY  
Manufactured by: KYOCERA Corporation

### Basic Operation

For detailed operations, refer to the "Basic Manual" application that can be used on the product.

- Power button**  
Power On (Long-touch at least 2 seconds)  
Displaying the Home Screen from the Start Screen  
Touch "START" and swipe (flick) toward "START" to display the Home screen. Swiping (flicking) toward "CAMERA"/"PHONE" activates camera/phone.
- Widget**  
Notification display  
Indicator  
Start icon (Start screen)  
Widgets are displayed in the Start screen. Swipe (flick) left/right or press (Direct button) to switch between widgets.
- Apps list**  
Display the Apps list.  
**Recents button**  
Display the recently-used apps.  
**Home button**  
Display the Home screen or use for canceling sleep mode.  
**Back button**  
Tap to return to the previous screen.
- Direct button**  
Long-touch to use the function set from the Apps list → [Settings] → [Direct Button].

Operate directly touching with your finger.

- Tap**  
Lightly touch a screen and then immediately release your finger.
- Long-touch**  
Keep touching a screen.
- Flick (swipe)**  
Touch the screen and flick up/down/left/right.
- Slide**  
Slide your finger across the screen in a desired direction to view hidden content.

### Character Entry

Enter character by flick input or tapping key repeatedly.

**Flick input**  
Long-touch a key to display input candidates for flick input as right screen. Flick to the direction of character to enter.

**Character entry mode switch key**  
Tap to switch character type.

### Silent Mode Setting

- Long-touch (Volume DOWN button) on left side of the product to set Silent mode on/off.
- To change the Silent mode type, access the Apps list → [Settings] → [Sound & notification] → [Silent mode type] → [Vibrate]/[Mute]/[Drive].

### Initial Settings

When you turn on the product for the first time, follow the onscreen instructions to set the language, functions, services, etc.

#### Setting Up a Google Account

Set up Google account to use Google apps such as "Gmail", "Play Store", "Hangouts". Setting items are as below (besides the items below, register "First" name, "Last" name).

User name	Register your Google account (user ID) and any character string for mail address. You can register a desired name, but a registered name by another user cannot be set.
Password	Register password for the Google account.

- Welcome → Select language, [Next]
- Select Wi-Fi network → Set up the Wi-Fi network to connect as required<sup>1</sup>
- Tap & Go → Back up apps and data as required<sup>1</sup>
- Add your account → [Or create a new account]<sup>2</sup>
- Create a Google Account → Enter your [First name] and [Last name] → [NEXT]
- Choose your username → Enter a user name → [NEXT]
- Create password → Enter a password, and reenter the password for confirmation → [NEXT]
- Verify your number → Confirm/change name of country and phone number → [VERIFY]<sup>1</sup>
- Privacy and Terms → Check the contents, then [AGREE]
- Your Google Account → Check the contents, then [NEXT]
- Set up payment info → Select whether to set payment information → [NEXT]
- Protect your phone → [SET SCREEN LOCK NOW]<sup>1</sup> → Follow the onscreen instructions
- Google services → Check the contents, then [NEXT]

<sup>1</sup> If you do not set up, tap "SKIP".  
<sup>2</sup> If you already have a Google account, enter the e-mail address.

### au Easy Setting

By setting au ID, you can use various services provided by au such as "au Simple Payment Service" which allows you to purchase applications from the au スマートパス (au Smart Pass) or Google Play. Main setting items as follows.

au ID*	Register your au phone number or any character string for au ID (user ID).
au ID password	Register password for using au ID.

- Welcome to au screen → [Next]
- [Register "au ID"] → [Next]
- [au IDの設定・保存 (Set/save au ID)]
- Enter the security code<sup>1</sup> → [OK]
- Enter a security password → [設定 (Settings)]
- [au ID設定メニューへ (To au ID settings menu)] → [パスワードを忘れた時のために (When you forget your password)]
- Enter 生年月日 (Date of birth), 秘密の質問 (Secret question), 答え (Answer) → [入力完了 (Done)] → [変更 (Change)] → [終了 (Done)]
- [Update] → [Next]
- Check the terms and conditions (reading required), [Agree] → [Next] → [Agree]<sup>2</sup>
- Check the contents, [Turn Auto Backup on]/[Turn Auto Backup off]<sup>3</sup> → [Next]
- Select apps to install → [次へ (Next)]
- Check the contents, [Activate]/[Skip activation] → [Next]
- Check the contents, [Activate]/[Skip activation] → [Next]
- Select type of data to return<sup>4</sup> → [次へ (Next)]
- [Finish]

<sup>1</sup> Default value is a four-digit number written at subscription.  
<sup>2</sup> Setting beforehand is completed for Lookout for au as soon as you tap "Agree".  
<sup>3</sup> When a screen different from that shown here appears, follow the onscreen instructions.  
<sup>4</sup> If no data is stored to auスマートパス (au Smart Pass), this screen is not displayed.

### E-mail

To use E-mail (@ezweb.ne.jp), subscription to LTE NET is required. If you did not subscribe it when you purchased the product, contact an au shop or Customer Service Center. Your E-mail address is determined automatically after initial setting. You can change the E-mail address later.

#### Initial Settings

- Home screen → [E-mail]
- Check the contents, then 接続する (Connect)
- Confirm e-mail address → 閉じる (Close)
- Check the contents, [Agree] → [Done]

#### Changing Your E-mail Address

- Home screen → [E-mail]
- [E-mail settings]
- [Other settings] → 接続する (Connect)
- [Eメールアドレスの変更へ (To change E-mail address)]
- Enter the security code → [送信 (Send)]
- Check the contents, then 承諾する (I accept)
- Enter E-mail address → [送信 (Send)]
- [OK]
- [閉じる (Close)]

#### Backing Up E-mail

You can back up E-mail. Backed up data is saved on a microSD™ memory card (/storage/sdcard1/private/au/email/BU) when a microSD™ memory card is attached. If a microSD™ memory card is not attached, data is saved on the internal storage (/storage/emulated/0/private/au/email/BU).

- Home screen → [E-mail]
- [E-mail settings]
- [Backup/Restore]
- [Mail Backup] → Confirm the notes and [OK]
- Select a character code to make backup data → [OK]
- Select a mail type to back up → [OK]

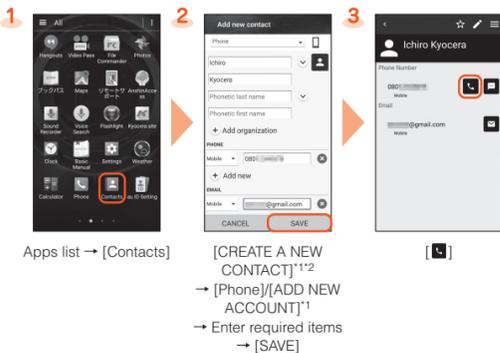

#### Mail Settings Other Than E-mail

You can use mail addresses except for E-mail (@ezweb.ne.jp). Use of other mail addresses requires accounts to be set. When using another mail address for the first time, set the address as follows.

Apps list → [Gmail] → Follow onscreen instructions

## Making a Call

### Adding a New Contact and Making a Call

Apps list → [Contacts]

[CREATE A NEW CONTACT]<sup>1,2</sup>

→ [Phone]/[ADD NEW ACCOUNT]<sup>1</sup>

→ Enter required items

→ [SAVE]

### Making a Call from Recent Calls History

Home screen → [Phone] → Tap the [RECENT CALLS] tab

[CALL] of a party to call

<sup>1</sup> If you tapped "SIGN IN TO AN ACCOUNT"/"ADD NEW ACCOUNT", follow onscreen instructions to set an account. If the contacts list is displayed, tap "ADD".  
<sup>2</sup> If you tap "Import contacts", see the section "Importing/Exporting Contacts".

### Checking your own phone number (Profile)

Operate as follow to check your own phone number.

Apps list → [Settings] → [Profile] → The profile screen is displayed.

## Receiving a Call

When a call arrives, answer the call as follows.

<sup>\*</sup> By default, the Sync Call "Display the popup on an incoming call" setting is "ON".

### Calling

If the Sync Call "Display the popup on an incoming call" setting is on.

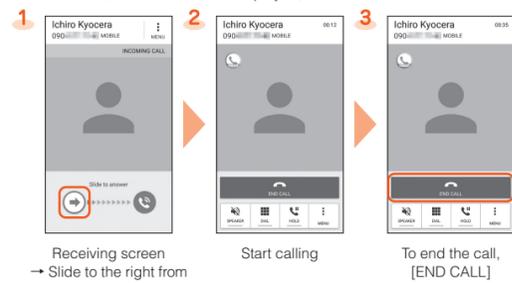

Receiving screen → [Accept]

Start calling

To end the call, [END]

If in Silent mode, the Start screen is displayed, etc.

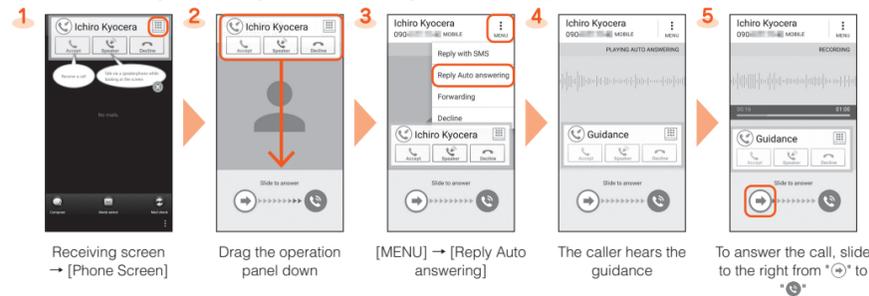

Receiving screen → Slide to the right from "MUTE" to "ANSWER"

Start calling

To end the call, [END CALL]

### Answering with Answering Memo

Answer by the answering memo message and record a message of the party when you cannot answer calls.

Receiving screen → [Phone Screen]

Drag the operation panel down

[MENU] → [Reply Auto answering]

The caller hears the guidance

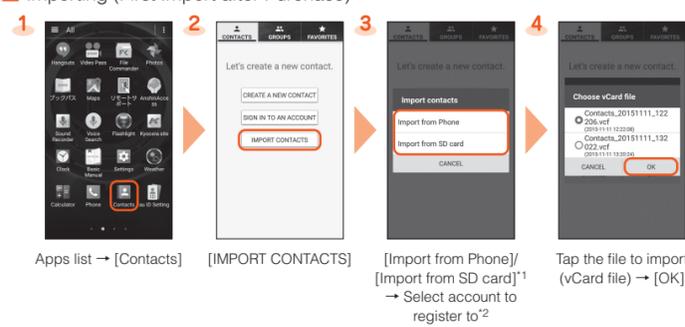

To answer the call, slide to the right from "MUTE" to "ANSWER"

## Importing/Exporting Contacts

You can import/export contacts from/to an au server/internal storage/microSD™ memory card.

<sup>\*</sup> Depending on the contact, data may not be completely imported/exported.

### Importing (First Import after Purchase)

Apps list → [Contacts]

[IMPORT CONTACTS]

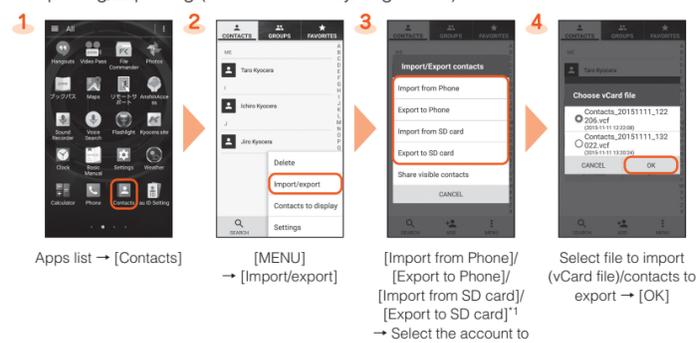

[Import from Phone]/ [Import from SD card]<sup>1</sup>

Tap the file to import (vCard file) → [OK]

<sup>1</sup> If only one file to import (vCard file) is saved, importing starts.

<sup>2</sup> Can only be selected when an account is registered.

### Importing/Exporting (Contacts Already Registered)

Apps list → [Contacts]

[MENU] → [Import/export]

[Import from Phone]/ [Export to Phone]/ [Import from SD card]/ [Export to SD card]<sup>1</sup>

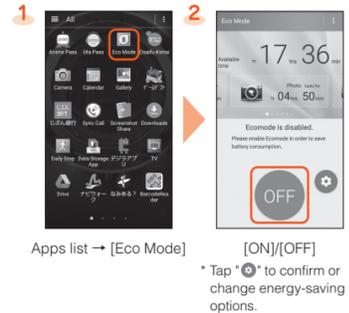

Select file to import (vCard file)/contacts to export → [OK]

<sup>1</sup> If you tapped "Import from Phone"/"Import from SD card" and only one file to import (vCard file) is saved, importing starts.

<sup>2</sup> If you tapped "Import from Phone"/"Import from SD card", can only be selected when an account is registered.

## Saving Battery Power

Use "Eco Mode" to adjust the sleep time of the backlight and the screen brightness or to enable/disable auto rotation of the screen so that you can save battery power.

Apps list → [Eco Mode]

[ON]/[OFF]

<sup>\*</sup> Tap "ON" to confirm or change energy-saving options.

## Setting Wi-Fi®

Use your home Wireless LAN (Wi-Fi®) or public wireless LAN to connect internet.

Main settings are as follows.

Select Wi-Fi® network for connection	Search for and connect to an available Wi-Fi® network.
WPS system	Use for registration of access point compatible with Wi-Fi Protected Setup™ with WPS mark.

<sup>\*</sup> If you turn on wireless LAN (Wi-Fi®) function, battery consumption increases. You are recommended to turn wireless LAN (Wi-Fi®) function to OFF when not using wireless LAN (Wi-Fi®) function.

### Selecting and Connecting to a Wi-Fi® Network

Apps list → [Settings]

[Wi-Fi]

[OFF]

Available Wi-Fi® networks are detected automatically and their SSIDs appear in the Wi-Fi® networks.

Select the Wi-Fi® network to connect to<sup>1</sup> → [CONNECT]<sup>2</sup>

<sup>1</sup> If the Wi-Fi® network you want to connect to cannot be detected, tap "Add network" and add the network manually.

<sup>2</sup> To connect to a protected Wi-Fi® network, enter the password (security key) and tap "CONNECT". The password (security key) is set with the Wi-Fi® network. For details, contact with the network administrator.

### Using a WPS System Access Point

WPS button

[MENU] → [Advanced] → [WPS Push Button]

Keep pressing WPS button of access point to set to WPS mode. An access point is automatically detected and registration starts.

WPS Pin Entry

[MENU] → [Advanced] → [WPS Pin Entry]

Enter displayed PIN code for access point, then registration starts.

## Viewing/Playing Data

By transferring data from a previously used au phone to a microSD™ memory card, you can view or play\* still images, videos, and other data with "File Commander" on the product. The first time you start up the product, terms and conditions appear. Follow onscreen instructions.

<sup>\*</sup> Copyrighted data on the previously used au phone cannot be transferred to the product. However, some 着うたフル®, ビデオクリップ®, 着うたフルプラス® may be able to be transferred and played on the product with the same phone number by backing up with LISMO Port Ver 4.2 or later.

### Viewing/Playing Data

Apps list → [File Commander]

Tap a category to be displayed → Tap data Data is played.

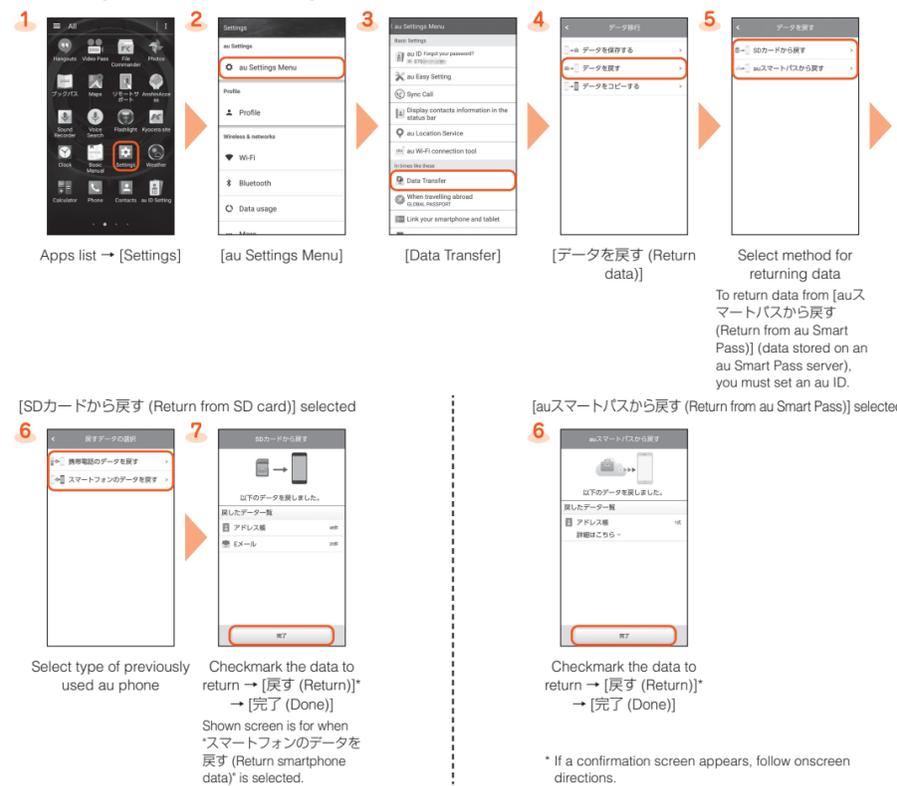

## How to Transfer Data with the au Settings Menu

You can return or store data from a previously used au terminal to the product using a microSD memory card or auスマートパス (au Smart Pass) server.

<sup>\*</sup> To return/store data using an auスマートパス (au Smart Pass) server, you must set an au ID.

<sup>\*</sup> To return data using a microSD memory card, save the data from the previously used au phone to the microSD memory card beforehand.

### Returning Data with the au Settings Menu

Apps list → [Settings]

[au Settings Menu]

[Data Transfer]

[データを戻す (Return data)]

Select method for returning data

[SDカードから戻す (Return from SD card)] selected

Select type of previously used au phone

Checkmark the data to return → [戻す (Return)]\* → [完了 (Done)]

Shown screen is for when "スマートフォンのデータを戻す (Return smartphone data)" is selected.

[auスマートパスから戻す (Return from au Smart Pass)] selected

Checkmark the data to return → [戻す (Return)]\* → [完了 (Done)]

<sup>\*</sup> If a confirmation screen appears, follow onscreen directions.

### Saving Data with the au Settings Menu

Apps list → [Settings]

[au Settings Menu]

[Data Transfer]

[データを保存する (Save data)]

Select where to save

[SDカードに保存する (Save to SD card)] selected

Checkmark the data to save → [保存する (Save)] -> [完了 (Done)]

[auスマートパスに預ける (Store to au Smart Pass)] selected

Checkmark the data to store → [預ける (Store)]\* -> Check the contents, and follow onscreen instructions -> [完了 (Done)]

<sup>\*</sup> If a confirmation screen appears, follow onscreen directions.

### Storing data automatically to auスマートパス (au Smart Pass)

To use the "Data Storage App" application and automatically store still images and address book entries to an auスマートパス (au Smart Pass) server, set as follows.

Apps list → [Settings] → [au Settings Menu] → [Backup Setting] → [定期的に自動で預ける (Periodically store automatically)]
